**Tanks and Combat Vehicles of the Warsaw Pact** Russell Phillips 2017-08-22 When East and West survived on a knife-edge between peace and war, both sides were busy preparing themselves for military action. But what exactly would NATO's troops have faced if the Cold War had suddenly turned hot? *Tanks and Combat Vehicles of the Warsaw Pact* is a fascinating reference book looking at the wide variety of combat vehicles which were poised and ready for action throughout the long years of military stand-off. Led by the Soviet Union, the nations which formed the Warsaw Pact were as innovative as they were prepared and these deadly war machines had the potential to change the course of world history forever. Find out more about these combat vehicles from how they worked to what they would have been capable of if they had been used in military action against NATO. *Tanks and Combat Vehicles of the Warsaw Pact* details more than 100 military vehicles from the 2P26 "Baby Carriage" - a compact Soviet off-road vehicle mounted with anti-tank missiles - to the T-80U main battle tank, in service from 1985 onwards.

*A Fleet in Being* Russell Phillips 2011 The Kaiserliche und Königliche Kriegsmarine - The Austro-Hungarian Navy - was in at the beginning of World War I when Archduke Franz Ferdinand and his wife Sophie lay in state aboard its flagship, and at the end when it dissolved along with the empire that commanded it. During the war, this small but powerful "fleet in being" forced the Allies to maintain a blockade of the Otranto Straits. German and Austro-Hungarian u-boats ran riot elsewhere in the Mediterranean even though the capital ships almost never left port. Illustrated with thirty photographs and drawings, this book provides a comprehensive and detailed reference of the ships that made up the KuK Kriegsmarine, its operations, and the unique problems this unusual fleet faced, from contentious duelling parliaments to ships built by landlocked Hungary.

*A Close Run Thing* David Donachie 2018-08-23 1796. Lieutenant John Pearce is hiding in the smugglers' hub of Gravelines with his mysterious companion, known only to him as Oliphant, trapped in French territory with no way out. Although they find a crew willing to take them to England, they discover on the journey that Pearce's old enemies, the Tolland brothers, are still active on the route, and may have been responsible for the murder of Catherine Carruthers. Meanwhile, being on his homeland brings Pearce closer to Emily Barclay and their young son, Adam, but their tumultuous past has left their relationship fragile and the constant need for discretion is an additional strain. Then, just as things may be looking up, it seems Henry Dundas has another role for him and Oliphant: a mission to north-east Spain. 'High adventure and detection; cunningly spliced battle scenes which reek of blood and brine; excitements on terra firma to match' *Literary Review Elections* 1960

*Full with Wills* Arthur Wills 2006 ?What a wonderful thing to be Organist of Ely Cathedral! ?As a young choirboy, with a natural desire and talent to compose, Arthur Wills was ?tugged? towards the magnificent Cathedral at Ely. He was eventually to become Director of Music there from 1958 to 1990. He held a Professorship at the Royal Academy of Music in London from 1964 until 1992, and also toured extensively as an organ recitalist in Europe, North America, Australia, New Zealand and Hong Kong. A celebrated, much admired and prolific English composer, Dr Wills OBE has made many recordings, making TV appearances and appearing before such eminent audiences as the Queen, the Pope, and the Princess of Wales. Despite that, *Full With Wills* is a modestly told biography, paying tribute to the many people who have touched his life and those who have played important roles in his long and distinguished career.

**Brief** 1944-06

*Operation Nimrod* Russell Phillips 2015-10-05 Drawing on extensive research, *Operation Nimrod* dispels the myths and reveals the truth of those six long days, and the dramatic rescue that thrust the SAS into the public eye. On 29th April 1980, British police assured Iran that their embassy was secure. The very next day, terrorists stormed the embassy and took twenty-six hostages. With the Iranian government willing to let the hostages become martyrs, and the British government only willing to talk if the terrorists surrendered, twenty-six lives hung in the balance. What followed was six days of tension and terror. It was finally ended

when the SAS launched a daring rescue mission, broadcast live on television. Millions held their breath, waiting to see the outcome of Operation Nimrod. Buy this book to learn the truth about one of the most dramatic rescue missions ever undertaken by the SAS.

**The Newspaper: A SHGGFTAWSGDSSFDF Delivery** Russell Phillips 2022-02-01 During the Second World War, information was one of the most precious currencies there was. And in this light-hearted and humorous one-shot adventure, delivering a simple newspaper could be the one thing which stops an entire village being erased from the history books and forgotten forever. In *The Newspaper*, the player characters will have to overcome a number of wartime challenges to ensure their delivery makes it into the hands of Dr Barnett Stross, a doctor and local politician in Stoke-on-Trent. If the mission succeeds, their newspaper will alert Dr Stross to the plight of Lidice, a Czechoslovakian village razed to the ground by the Nazis, and inspire him to start the Lidice Shall Live campaign. While the stakes may be high in this adventure, the action is far from serious. Players will have to keep their heads down and avoid the police, keep their valuables from being stolen by pickpockets, survive an air raid, and stay on the right side of the Home Guard. Will you complete the mission with your dignity intact? Or will your newspaper merely end up being the next day's fish and chip paper?

**The Great Acceleration** Robert Colville 2016-05-17 The Great Acceleration is an energizing account from a brilliant new writer of how our society is speeding up-- and why we should embrace it. In this revelatory study of modern living, Robert Colville inspects the various ways in which the pace of life in our society is increasing and examines the evolutionary science behind our rapidly accelerating need for change, as well as why it's unlikely we'll be able to slow down . . . or even want to. Exploring theories surrounding the effect of this speed on our minds and bodies, Colville reveals how, contrary to gloomier predictions, living in a faster age might be beneficial for us, both physically and mentally. In addition to the universe of social media, he examines the opportunities that faster communication and operation could bring to everything from music, film, and books to transportation, politics, and government. Comparing developments in cities and villages, advanced economies and underdeveloped countries, East and West, *The Great Acceleration* explains how the positives outnumber the negatives and, if this acceleration is truly inevitable, why we should rush to embrace it.

**The American Story** Michael M. Rea 1996-02

The American Irish William V. Shannon 1964

Viennese Waltz Alex Brightsmith 2013

**Short Stories Collection:** Karen Margaryan 2014-03-30 This is a collection of works of such great authors as, Arthur Conan Doyle, James Matthew Barrie, Joseph Conrad, Daniel Defoe and etc. More than 1.500.000 words, gold words. This collection is intended to simplify our task. No longer need to look for books on different sites, all of them are already collected in one book. In this volume: -Alexandre Dumas -Mary Eleanor Wilkins Freeman -Richard Le Gallienne -Sir Henry Rider Haggard -Thomas Hardy -Nathaniel Hawthorne -Washington Irving -James Joyce -Franz Kafka -Rudyard Kipling

**HEAR HEAR!** John Gouriet 2010-04 "HEAR HEAR " is a collection of over 700 letters and articles written by the author to the British Press over the last 11 years of the Blair/Brown governments. John Gouriet has been close to the hub of British politics for 35 years and helped Margaret Thatcher win her first election victory in 1979. Since then Mr. Gouriet has made many accurate predictions, in some cases years in advance of events. He is considered by the Sunday Telegraph to be one of their best letter writers. "Hear Hear " is written with humour and impeccable logic about politics in Britain and abroad, especially relations with the EU and the US and the two wars. It also contains over 60 very funny and penetrating cartoons by Garland, who was cartoonist of the year in 2008, and a Foreword by Lord Tebbit, one of Lady Thatcher's leading ministers. It is a devastating critique of the actions of many who presume to govern Britain, whether by election

or appointment, of all parties. Mr. Gouriet describes how public apathy, avarice and ignorance have been shamelessly exploited in pursuit of political ambition and the establishment of a socialist state answerable not to the Crown or the people but a corrupt alien power known as Euroland. In his view, unless and until the British people re-assert their rights, liberties and rule of law in accordance with the British Constitution they will remain doomed to servitude until the Euro-edifice itself collapses, which the author believes is inevitable. Until then they will have to endure the same furnace that Solzenitsyn predicted. This is the sorry conclusion drawn from one man's daily vigil. This explosive book does not make comfortable reading for those who have failed Britain, but it should prove inspirational for those determined to restore Britain's freedom and fortune.

**The Esquire Fiction Reader** L. Rust Hills 1985

Ersatz Krieg: A True Story of Men Captured, But Not Conquered

The Beating of his Wings Paul Hoffman 2013-08-15 *The Beating of his Wings* by Paul Hoffman is the final instalment in his epic Cale and the Sanctuary of Redeemers series. Thomas Cale has been running from the truth. Since discovering that his brutal military training has been for one purpose - to destroy God's greatest mistake, mankind itself - Cale has been hunted by the very man who made him into the Angel of Death: Pope Redeemer Bosco. Cale is a paradox: arrogant and innocent, generous and pitiless. Feared and revered by those created him, he has already used his breathtaking talent for destruction to bring down the most powerful civilisation in the world. But Thomas Cale is weak. His soul is dying. As his body is wracked with convulsions he knows that the final judgment will not wait for a sick boy. As the day of reckoning draws close, Cale's sense of vengeance leads him back to the Sanctuary - and to confront the person he hates most in the world. Finally Cale must recognise that he is the incarnation of God's rage and decide if he will stand against the Sanctuary of the Redeemers and use his unique skill of laying waste to all things. The fate of mankind rests on Cale's decision. *The Beating of his Wings* is the third and final instalment in Paul Hoffman's epic Cale and the Sanctuary of the Redeemers trilogy, following *The Left Hand of God* and *The Last Four Things*. Phillip Pullman's *His Dark Materials* meets Umberto Eco's *Name of the Rose*, and fans of epic heroic fiction will love this series. Praise for Paul Hoffman: 'This book gripped me from the first chapter and then dropped me days later, dazed and grinning to myself' Conn Iggulden 'Tremendous momentum' Daily Telegraph 'A cult classic . . .' Daily Express

**The Graywolf Annual** 1985

Artillery of the Warsaw Pact Russell Phillips 2018-08-22 Considered to be "the god of modern war" by the Soviet army, artillery played a vital role in the Cold War period. The armies of the Warsaw Pact made artillery a cornerstone of their military strategies. And the importance they placed on this type of weaponry saw them use their technology and expertise to develop a wide range of munitions including mortars, rocket launchers, missiles and large-calibre guns. *Artillery of the Warsaw Pact* provides a compelling and detailed account of the artillery used by Warsaw Pact countries and the important role it played during this period of suspicion, tension and unease. The powerful weapons created at this time had the potential to destroy significant enemy resources, posing a very real threat to NATO forces. This book will allow you to gain an insight into the way in which artillery was used by the Soviet Union and other Warsaw Pact nations. Read about mortars ranging from light 50mm weapons to enormous 240mm breech-loaded versions capable of destroying fortified buildings from a distance. *Artillery of the Warsaw Pact* also looks at the widespread use of towed guns as well as the growth in popularity of self-propelled guns. The book also details how Second World War weapons like multiple rocket launchers continued to play a key part in the Cold War hostilities, alongside newly-developed artillery, including tactical ballistic missiles which Khrushchev viewed as a critical part of his response to the threat posed by the United States.

**The Last Survivor (A Wilde/Chase Short Story)** Andy McDermott 2015-09-24 Join Nina Wilde and Eddie Chase in a digital exclusive short story from the international bestseller Andy McDermott. Also contains an exclusive extract from *THE REVELATION*

CODE, the next in the Wilde & Chase series Nina Wilde is pregnant and feeling very alone. Reeling from the events of her last mission, in which a close friend died in their attempt to stop a resurgent Nazi force from stealing a great archaeological treasure, all Nina can do is try and find solace in her work. But there is one last survivor. A man determined to take his revenge on Nina for all that befell his brethren. Now he is in New York, waiting for his chance. Can Nina's husband, former SAS soldier Eddie Chase, stop him?

A Damn Close-Run Thing Russell Phillips 2013 In 1982, the average Briton didn't know the Falkland Islands existed, let alone their status as a disputed British territory just off the coast of Argentina. That changed when the Argentinians invaded the islands and overwhelmed the small defending force. Both nations claimed the islands were theirs, but now Argentina thought the British would give them up without a fight. They were wrong. Britain sent a task force into the South Atlantic to re-take the islands, and the short, intense war that followed was--in the words of Major-General Sir John Jeremy Moore--"a damn close-run thing." This short history sums up the events leading up to the war and its major military actions including details of an Argentinian plan to sink a Royal Navy ship in Gibraltar harbour (foiled at the last minute by Spanish police) and an audacious British plan to land SAS soldiers in Argentina to destroy Exocet-carrying aircraft while they were still on the ground. With Shilka Publishing's "Digital Reinforcements," buy the print edition, and get the ebook FREE. Details at [www.shilka.co.uk/dr](http://www.shilka.co.uk/dr)

**Whatever it Takes** Lloyd R. Moses 1991

**A Damn Close-Run Thing** Russell Phillips 2011-09-13 "It was a damn close-run thing" – Major-General Moore, commander of the British land forces in the South Atlantic In 1982, the average Briton didn't know the Falkland Islands existed, let alone their status as a disputed British territory just off the coast of Argentina. That changed when the Argentinians invaded the islands and overwhelmed the small defending force. Both nations claimed the islands were theirs, but now Argentina thought the British would give them up without a fight. They were wrong. Britain sent a task force into the South Atlantic to re-take the islands, and the short, intense war that followed was--in the words of Major-General Sir John Jeremy Moore--"a damn close-run thing." Wellington and Waterloo R. E. Foster 2014-02-03 The events which unfolded south of Brussels on 18 June 1815 conferred instant immortality on those who took part in them. For the Duke of Wellington, Waterloo consummated victory in a long battle for what he considered to be his due recognition. Whilst he guarded that reputation jealously, he also jeopardised it by his decision to enter politics in what proved to be an especially partisan age. Even the outpouring of national grief which accompanied his death in 1852 could not totally obscure the ambivalence he had aroused in life. The memory of Waterloo, meanwhile, followed its own trajectory. Travellers initially flocked to the battlefield as if drawn by a magnet. What the triumph meant for Britain, and the wider world, moreover, became a battle in itself, one fought variously in the political, literary and artistic theatres of war. As the nineteenth century advanced, it was only Waterloo's less-exalted participants who, relatively, faded from view - or were ignored. Drawing on many under-utilised sources to illuminate some less familiar themes, this timely study offers fresh perspectives on one of Britain's best-known figures, as well as on the nature of heroism. The reader is also given pause for thought as to appropriate forms of commemoration and how national celebrations are prone to manipulation, for their own purposes, by those in government.

The Bear Marches West Russell Phillips NATO kept the Warsaw Pact behind the Berlin Wall until its dissolution - but what if it hadn't? The Bear Marches West contains 12 wargame scenarios set during a fictional Warsaw Pact invasion of West Germany in the 1980s. All the scenarios are based on battles depicted in well-known novels, and are designed to be used with whatever rules the players wish. Each scenario includes the battle's context, weather conditions, deployments, force lists and a colour map. The scenarios range in scale from small skirmishes, with a company on each side, to large engagements, with Soviet regiments bearing down on smaller but better-equipped NATO units.

**This We'll Defend** Russell Phillips 2011-06-21 The U.S. Army is the best-equipped force in military history, from the simple bayonet to multi-million-dollar technological marvels like the M1 Abrams tank and Apache Longbow helicopter. This We'll Defend outlines the most important weapons and equipment the Army currently uses. All facts, figures and images in this ebook are direct from publicly available Army sources, edited and annotated to form a short, easy-to-use but comprehensive reference. Included: Tracked Vehicles Individual and Crew Served Weapons Aircraft Air Defence Artillery Anti-Armour Weapons Indirect Fire Systems Nuclear, Biological and Chemical (NBC) Defence Equipment Wheeled Vehicles **Thinking In Time** Richard E. Neustadt 2011-08-23 "A convincing case that careful analysis of the history, issues, individuals, and institutions can lead to better decisions--in business as well as in government" (BusinessWeek). Two noted professors offer easily remembered rules for using history effectively in day-to-day management of governmental and corporate affairs to avoid costly blunders. "An illuminating guide to the use and abuse of history in affairs of state" (Arthur Schlesinger).

Dracula's Wars James Waterson 2016-07-04 The real Dracula was far from Bram Stoker's well-mannered aristocrat. Better known as Vlad the Impaler, he was named for his favoured execution method: running a spear through his victim's lower body, then standing them upright so it skewered their vital organs. In a world ruled by petty tyrants and constantly at war, the young Dracula was held hostage by the Turks while his father was assassinated and his brother was buried alive. Finally released, Dracula conducted an almighty purge, surrounding his palace with noblemen impaled on stakes. Then he turned his attention to military campaigns against the Turks and Bulgars to consolidate his power. Yet to Romanians and the Pope he was a hero and liberator, fighting to protect his kingdom and countrymen from invasion in a complex and treacherous time. And, as an initiate in the Order of the Dragon, Dracula also played a vital (if not entirely noble) part in the fight against the Ottoman war machine. In this full account of Vlad Dracula, James Waterson details the good and the bad of this warlord prince, offering a fascinating insight into the violent end of the Middle Ages.
