World Encyclopedia of Contemporary Theatre Irving Brown (Consulting Bibliographer) 2013-10-11 An annotated world theatre bibliography documenting significant theatre materials

published world wide since 1945, plus an index to key names throughout the six volumes of the series. "Nancy Spero, Encounters " JoannaS. Walker 2017-07-05 An original and valuable intervention in the fast-growing

field of feminist and new art histories, Nancy Spero, Encounters offers a sophisticated interpretation of the work of a highly original and under-represented woman artist. The study proposes a new model of comparatism within the field of visual studies, mirroring and complementing Spero's dialogic manner of working. Basing her analyses on extensive research and multiple face-to-face interviews with the artist, Joanna Walker examines how a selection of the artists and art forms Spero cited offer significant points of comparison with her work. Walker presents Spero's encounters with the art of Ana

Mendieta; with the poetry of the American poet H.D.; with the dance of Isadora Duncan; and, turning the lens back on Spero as subject, with the portraits of the artist by Abe Frajndlich. Also included are transcripts of Walker's interviews with the artist, and a listing of the books contained in Spero's personal library which informed her practice. Not only does this book cast well-deserved light on an artist who spent most of her career on the margins of the mainstream - it reverses genealogies and revises the traditional remit of the art historical monograph through both its structure and content.

Antonin Artaud Edward Scheer

2014-04-04 This resource collects for the first time some of the best criticism on Artaud's life and work from writers such as Jacques Derrida, Julia Kristeva, Maurice Blanchot, Herbert Blau, Leo Bersani and Susan Sontag. Antonin Artaud was one of the most brilliant artists of the twentieth century. His writing influenced entire generations, from the French post-structuralists to the American beatniks. He was a key figure in the European cinema of the 1920s and '30s, and his drawings and sketches have been displayed in some of the major art galleries of the Western world. Possibly best known for his concept of a

'theatre of cruelty', his legacy has been to re-define the possibilities of live performance. Containing some of the most intellectually adventurous and emotionally passionate writings on Artaud, this book is essential reading for Artaud scholars working in arts disciplines including theatre, film, philosophy, literature and fine art.

Cultural Responses to Occupation in Japan Adam Broinowski 2016-01-14 Cultural Responses to Occupation in Japan examines how the performing arts, and the performing body specifically, have shaped and been shaped by the political and historical

conditions experienced in Japan during the Cold War and post-Cold War periods. This study of original and secondary materials from the fields of theatre, dance, performance art, film and poetry, probes the interrelationship that exists between the body and the nation-state. Important artistic works, such as Ankoku Butoh (dance of darkness) and its subsequent re-interpretation by a leading political performance company Gekidan Kaitaisha (theatre of deconstruction), are analysed using ethnographic, historical and theoretical modes. This approach reveals the nuanced and prolonged effects of military, cultural and political

occupation in Japan over a duration of dramatic change. *Cultural Responses to Occupation in Japan* explores issues of discrimination, marginality, trauma, memory and the mediation of history in a ground-breaking work that will be of great significance to anyone interested in the symbiosis of culture and conflict.

Artaud 1965 "I am the man,"
wrote Artaud, "who has best
charted his inmost self." Antonin
Artaud was a great poet who,
like Poe, Holderlin, and Nerval,
wanted to live in the infinite and
asked that the human spirit
burn in absolute freedom. To
society, he was a madman.
Artaud, however, was not
insane but in luciferian pursuit
of what society keeps hidden.
The man who wrote Van Gogh
the Man Suicided by Society
raged against the insanity of
social institutions with insight
that proves more prescient with
every passing year. Today, as
Artaud's vatic thunder still
crashes above the "larval

confusion" he despised, what is
most striking in his writings is
an extravagant lucidity. This
collection gives us
quintessential Artaud on the
occult, magic, the theater, mind
and body, the cosmos,
rebellion, and revolution in its
deepest sense.

Combining essays from over 20 internationally renowned contributors, this text offers a critical examination of key terms which have become increasingly central to educational discourse. Each essay considers the etymological foundation of each term, the context in which they have evolved, and likewise their

changed meaning. In doing so, these essays illustrate the transformative potential of language to express or challenge political, social, and economic ideologies. The text's musings on the language of education and its implications for the current and future role of education in society make clear its relevance to today's cultural and political landscape. This exploratory monograph will be of interest to doctoral students, researchers, and scholars with an interest in the philosophy of education, educational policy and politics, as well as the sociology of education and the impacts of neoliberalism.

Giorgio Agamben Tom Frost

2013-11-20 This book collects new contributions from an international group of leading scholars – including many who have worked closely with Agamben – to consider the impact of Agamben’s thought on research in the humanities and social sciences. Giorgio Agamben: Legal, Political and Philosophical Perspectives addresses the potential of Agamben’s thought by re-focusing attention away from his critiques of Western politics and towards his scheme for a political future. Part I of the book draws upon a wide range of issues such as legal oaths, legal reasoning and Christian conceptions of love in order to

examine the potential for Agamben’s work to impact upon future legal scholarship. Part II focuses on political perspectives that include references to Marx, Rousseau and Agamben’s conception of the ‘messianic’. Theology, biology, and the thought of Gilles Deleuze, Walter Benjamin and Antonin Artaud are all drawn upon in Part III to explore philosophical perspectives in Agamben’s thought. This book demonstrates the importance and originality of Giorgio Agamben, who has articulated a vision of politics that must be recognised as an influential contribution to modern philosophical and political

thinking. It is a book that will be of considerable interest to many working across the humanities and social sciences.

Artaud's Theatre Of Cruelty

Albert Bermel 2014-05-20 The definitive guide to the life and work of Antonin Artaud Antonin Artaud's theatre of cruelty is one of the most vital forces in world theatre, yet the concept is one of the most frequently misunderstood. In this incisive study, Albert Bermel looks closely at Artaud's work as a playwright, director, actor, designer, producer and critic, and provides a fresh insight into his ideas, innovations and, above all, his writings. Tracing the theatre of cruelty's origins in earlier dramatic conventions, tribal rituals of cleansing,

transfiguration and exaltation, and in related arts such as film and dance, Bermel examines each of Artaud's six plays for form and meaning, as well as surveying the application of Artaud's theories and techniques to the international theatre of recent years.

essays in this volume hold up

many facets of the artistic

output of Breyten Breytenbach,

the Afrikaans poet who first

Deleuze and Religion Mary Bryden 2002-01-04 Despite the ever-expanding body of Deleuzian scholarship, single volume has explored the religious dimensions of Deleuze's writing. Now, Mary Bryden has assembled a team of international scholars to do just that. Their essays illustrate the ways in which Deleuzian thought is antithetical to

religious debate, as well as the ways in which it contributes to those debates. This volume will be invaluable for researchers, teachers and students of theology, philosophy, critical theory, cultural studies and literary criticism as well as to students of French who read Deleuze's work in its original language.

A Sulfur Anthology Clayton Eshleman 2016-01-29 From 1981 to 2000, Sulfur magazine presented an American and international overview of innovative writing across forty-six issues, totaling some 11,000 pages and featuring over eight hundred writers and artists, including Norman O. Brown,

Jorie Graham, James Hillman, Mina Loy, Ron Padgett, Octavio Paz, Ezra Pound, Adrienne Rich, Rainer Maria Rilke, and William Carlos Williams. Each issue featured a diverse offering of poetry, translations, previously unpublished archival material, visual art, essays, and reviews. Sulfur was a hotbed for critical thinking and commentary, and also provided a home for the work of unknown and younger poets. In the course of its twenty year run, Sulfur maintained a reputation as the premier publication of alternative and experimental writing. This was due in no small measure to its impressive masthead of

contributing editors and correspondents: Marjorie Perloff, James Clifford, Rachel Blau DuPlessis, Keith Tuma, Allen Weiss, Jed Rasula, Charles Bernstein, Michael Palmer, Clark Coolidge, Jayne Cortez, Marjorie Welish, Jerome Rothenberg, Eliot Weinberger, managing editor Caryl Eshleman, and founding editor Clayton Eshleman. A Sulfur Anthology offers readers an expanded view of artistic activity at the century's end. It's also a luminous document of international poetic vision. Many of the contributions have never been published outside of Sulfur, making this an indispensable collection of

poetry in translation, and poetry in the world.

Psychology without Foundations

For many years, for many people social psychology has been deemed a discipline in crisis. This new book proposes a way out of the crisis by letting go of the idea that psychology needs new foundations or a new identity, whether biological, discursive or cognitive. The psychological is not narrowly confined to any one aspect of human experience; it is quite literally everywhere. The book proposes a strong process-oriented approach to the

psychological, which studies events or occasions. Aspects of experience such as communication or embodiment are treated as thoroughly mediated - the product of multiple intersecting relationships between the biological, the psychic and the social. The outcome is an image of a mobile, reflexively founded discipline which follows the psychological wherever it takes us, from the depths of embodiment to the complexities of modern global politics.

impact of time and memory as

they intersect and constitute the varied spaces of theatre. Delirious Kelly Baum

2017-09-12 Can postwar art be understood as an exercise in calculated insanity? Taking this provocative question as its basis, this book explores the art and history of delirium from

1950 to 1980, an era shaped by the brutality of World War II and the rapid expansion of industrial capitalism. Skepticism of science and technology—along with fear of its capability to promote mass destruction—developed into a distrust of rationalism, which profoundly influenced the art of the times. *Delirious* features work by more than sixty artists from Europe, Latin America, and the United States, including Dara Birnbaum, León Ferrari, Gego, Bruce Nauman, Howardena Pindell, Peter Saul, and Nancy Spero. Experimenting with irrational subject matter and techniques, these artists forged new

strategies that directly responded to such unbalanced times. Disturbing and challenging, the works in this book—in multiple media and often, counterintuitively, incorporating highly ordered and systematic structures—upend traditional notions of aesthetic harmony. Three wide-ranging essays and a richly illustrated plates section investigate the degree to which delirious times demand delirious art, inviting readers to “think crazy.” p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

No More Masterpieces Lucy Bradnock 2021-03-12 This groundbreaking account of postwar American art traces the profound influence of Antonin Artaud. Proposing an original reassessment of art from the 1950s to the 1970s, No More Masterpieces reveals how artistic practice in postwar America was profoundly shaped by the work of the rebellious French poet and dramatist Antonin Artaud (1896-1948). A generation of artists mobilized Artaud's countercultural ideas to imagine new forms of representation and to redefine

the relationship between artist and audience. The book shows how Artaud's radical writings inspired the experimental theatrical work of John Cage, Rachel Rosenthal, and Allan Kaprow; the attack on artistic and social conventions launched by assemblage artists Wallace Berman and Bruce Conner; and the feminist work of Carolee Schneemann and Nancy Spero. Lucy Bradnock traces the dissemination of Artaud's writings in America and demonstrates how his interest in political and cultural disorder, the dangers of authority, and the unreliability of representation found fertile ground in the context of the

Cold War, disillusionment with the ideals of Abstract Expressionism, and the early years of identity politics.

2017-10-16 This volume examines the relationship between occultism and Surrealism, specifically exploring the reception and appropriation of occult thought, motifs, tropes and techniques

by Surrealist artists and writers in Europe and the Americas, from the 1920s through the 1960s. Its central focus is the specific use of occultism as a site of political and social resistance, ideological contestation, subversion and revolution. Additional focus is placed on the ways occultism was implicated in Surrealist discourses on identity, gender, sexuality, utopianism and radicalism.

Antonin Artaud and the Modern Theater Gene A. Plunka 1994

The aim of this collection of original essays is twofold: first, to cement Antonin Artaud's position as a significant theorist and innovator of the modern

theater whose ideas not only have become far reaching but also have had practical stage applications, and second, to explicate several of the subtle nuances of Artaud's theories so as to make his ideas more accessible. Artaud exerted a profound impact on the theater. As a theatrical innovator and theorist of modern dramaturgy, he has had considerable influence among playwrights and actors. Some of the twentieth century's most creative theater directors have been Artaud's disciples, and his theoretical writings have inspired such diverse theatrical groups as Jerzy Grotowski's Laboratory Theatre, John

Cage's "happenings" of the 1950s and 1960s, Joseph Chaikin's Open Theatre, Julian Beck and Judith Malina's Living Theatre, Richard Schechner's Performance Group, and Ariane Mnouchkine's Theatre de Soleil. The first section of this anthology clarifies Artaud's theories and provides insight about his life and ideology. The role that comedy plays in Artaud's conception of theater is examined as well as the concepts of cruelty and cure, explicating how Artaud used these terms in relationship to the metaphor of the theater as plague. Various influences on Artaud's theories of drama are discussed as is the influence of

Mayan culture and Balinese rituals. The second group of essays establishes Artaud's influence on, and relationship to, several significant twentieth-century dramatists, innovative performance artists, and seminal theater movements. Artaud's theories on Oriental theater are applied to modern cultural anthropology and to absurdist drama. Also examined are the similarities between Artaud and Polish playwright Stanislaw Ignacy Witkiewicz as are Artaudian elements in a quintessential example of Theatre of Cruelty. Artaud's vision of community is analyzed by its application to the environmental theater of the

1960s and 1970s. Last to be discussed is Artaud's influence on Spain's most significant post-Lorcan dramatist, Antonio Buero-Vallejo.
