Peer review in scientific publications Great Britain: Parliament: House of Commons: Science

and Technology Committee 2011-07-28 This report indicates that the oversight of research integrity in the UK is unsatisfactory. The Science and Technology Committee concludes that in order to allow others to repeat and build on experiments, researchers should aim for the gold standard of making their data fully disclosed and

made publicly available. The report examines the current peer-review system as used in scientific publications and the related issues of research impact, data management, publication ethics and research integrity. The UK does not seem to have an oversight body for research integrity covering advice and assurance functions across all disciplines and the Committee recommends the creation of an external regulator. It also says all UK research institutions should have a specific member of staff leading on research integrity. The report highlights concerns about the use of journal Impact Factor as a proxy measure for the quality of research or of individual articles. Innovative ways to improve current pre-publication peer-review practices are highlighted in the report, including the use of pre-print servers, open peer review, increased transparency and online repository-style journals. The growth of post-publication peer review and commentary also represents an enormous opportunity for experimentation with

new media and social networking tools, which the Committee encourages. There should also be greater recognition of the work-sometimes considered to be a burden-carried out by reviewers, by both publishers and employers. In order to do this, publishers need to have in place systems for recording and acknowledging the contribution of those involved in peer review.

Neo-Abolitionism David Ellerman 2021-03-21

This book argues for the abolition of the employment system in favor of workplace democracy and thus escapes the usual capitalism-versus-socialism binary choice by reframing the basic issue as the employment contract, not private property or a market economy. The author repositions the political and economic debate in the lineage of abolitionism - against the owning of other people - which in its modern version of neo-abolitionism would also abolish the renting, or hiring, employing, or leasing of other people. The

overall argument is based on three recovered theories, each one of which is sufficient to yield the neo-abolitionist conclusion. These three rights-based theories are developed throughout the book. The three theories are 1) inalienable rights theory, 2) the natural rights or labor theory of property, and 3) democratic theory as based on a democratic constitution that only delegates governance rights versus a non-democratic constitution that alienates governance rights. The book, therefore, is a must-read for everybody interested in a better understanding of the political economy, workplace democracy, rights-based theories, and the employment system.

Diet Quality Victor R. Preedy 2013-06-28 Diet quality is a broad term that encapsulates both

perceived and actual practices, personal preferences and cultural diversity. Measuring dietary quality can be problematic and includes investigating food types, the number or size of portions or their frequency. Diet quality may also be related to the type of food being ingested, snacking and other eating habits. Manufactured beverages and fast food may also be included as well as microbiological quality and attempts to improve single food items such as meats or vegetables. In this book, *Diet Quality: An Evidence-Based Approach, Volume 1* all of the major facets of diet quality in relation to health outcomes are covered. This important new text includes methods for determining diet quality while adopting a holistic approach to impart information on the major areas of concern or knowledge. Chapters link in measurable indices of health such as obesity, pregnancy outcomes, cancer and cancer outcomes, and mortality. This book represents a diverse set of subject matters and seeks to fill a

gap in the literature at a time when there is an increasing awareness that well being is associated with the qualitative nature of diets. Contributors are authors of international and national standing and emerging fields of science are incorporated. Diet Quality: An Evidence-Based Approach, Volume 1 is a useful new text designed for nutritionists, dietitians, clinicians, epidemiologist, policy makers and health care professionals of various disciplines.

The Empire Has An Answer Tony James Brady 2019-06-05 'If we do not win the battle of training, we shall win no other battle in the air.' In 1943 the Royal Air Force recognised that training a vast amount of aircrew for a high attrition war was essential to an Allied victory, and that the key to winning the 'battle of training' was the Empire Air Training Scheme (EATS). 37,576 Australian aircrew graduated from the EATS. Over 300 were killed whilst training for war and 9874 aircrew were killed or listed as missing while on active duty. Those who

fought under this scheme during World War II amounted to just 6.7 per cent of Australian service personnel serving overseas yet the aircrew losses amounted to almost 25 per cent of all the Australian fatalities during the war. This made serving in EATS among the most hazardous duties of the war. The Empire has an Answer was researched using more than 35 000 articles, from 150 metropolitan, regional, and district newspapers, and what materialised was a story of one of, if not, the greatest training programs the world has seen. Follow the journey from the conception and implementation of the scheme, through recruitment and basic training, flight training, and then into combat. The individual accounts woven into the narrative provide a first-hand experience of the triumphs and trials of typical airmen and airwomen who performed extraordinary feats in a time of great need. The significant achievements and success of the Empire Air Training Scheme has for the most part been overlooked in our history, until

now.

Black Cowboys in the American West Bruce A. Glasrud 2016-09-28 Who were the black cowboys? They were drovers, foremen, fiddlers, cowpunchers, cattle rustlers, cooks, and singers. They worked as wranglers, riders, ropers, bulldoggers, and bronc busters. They came from varied backgrounds—some grew up in slavery, while free blacks often got their start in Texas and Mexico. Most who joined the long trail drives were men, but black women also rode and worked on western ranches and farms. The first overview of the subject in more than fifty years, *Black Cowboys in the American West* surveys the life and work of these cattle drivers from the years before the Civil War through the turn of the twentieth century. Including both classic, previously published articles and exciting new research, this collection also features select accounts of twentieth-century rodeos, music, people, and films. Arranged in three sections—“Cowboys on the Range,” “Performing

Cowboys,” and “Outriders of the Black Cowboys”—the thirteen chapters illuminate the great diversity of the black cowboy experience. Like all ranch hands and riders, African American cowboys lived hard, dangerous lives. But black drovers were expected to do the roughest, most dangerous work—and to do it without complaint. They faced discrimination out west, albeit less than in the South, which many had left in search of autonomy and freedom. As cowboys, they could escape the brutal violence visited on African Americans in many southern communities and northern cities. Black cowhands remain an integral part of life in the West, the descendants of African Americans who ventured west and helped settle and establish black communities. This long-overdue examination of nineteenth- and twentieth-century black cowboys ensures that they, and their many stories and experiences, will continue to be known and told.

[Anti-Racist Social Work](#) Lena Dominelli

2017-09-21 Fully revised and updated throughout, this fourth edition of Lena Dominelli's influential book retains its reputation as the go-to text on anti-racist social work practice. As racism continues to present a problem in contemporary society: the growth of the Far Right, the rise of Islamophobia and the victory of the Brexit camp in the EU referendum, the need to address racist attitudes and behaviour that affect diverse groups of people in the UK remains an urgent one. A truly classic text, Anti-Racist Social Work has been providing students and practitioners with a comprehensive guide to the debates and practices on racism in contemporary society since 1988. New to this Edition: - Includes a brand new chapter on 'Social Work Across Borders' - Incorporates discussion of recent events and developments to encourage critical thinking and analyses their effect on practice - Offers examples from across the globe at both micro and macro level

Cooperation without Submission Justin B. Richland 2021-09-06 A meticulous and thought-provoking look at how Tribes use language to engage in "cooperation without submission." It is well-known that there is a complicated relationship between Native American Tribes and the US government. Relations between Tribes and the federal government are dominated by the principle that the government is supposed to engage in meaningful consultations with the tribes about issues that affect them. In Cooperation without Submission,

Justin B. Richland, an associate justice of the Hopi Appellate Court and ethnographer, closely examines the language employed by both Tribes and government agencies in over eighty hours of meetings between the two. Richland shows how Tribes conduct these meetings using language that demonstrates their commitment to nation-to-nation interdependency, while federal agents appear to approach these consultations with the assumption that federal law is supreme and ultimately authoritative. In other words, Native American Tribes see themselves as nations with some degree of independence, entitled to recognition of their sovereignty over Tribal lands, while the federal government acts to limit that authority. In this vital book, Richland sheds light on the ways the Tribes use their language to engage in “cooperation without submission.”

Answer Them Nothing Debra Weyermann
2011-08-01 The compelling story of the struggle by law enforcement and activists to dismantle the Fundamentalist Church of Jesus Christ of Latter Day Saints (FLDS) is finally told. In 1953, when police raided the Short Creek compound of the FLDS, it soon became a political and publicity nightmare eventually costing the governor of Arizona his job. Thus began 50 years of skittish public officials turning a blind eye to heinous offenses such as child abandonment, kidnapping, statutory rape, and incest, as well as massive tax and welfare fraud. Warren Jeffs

became the new FLDS prophet and president in 2002, and anti-FLDS activists watched in horror as he used his boundless authority and the resources of a tax-supported community to devastate thousands of lives on cruel whims. This exposé presents a detailed, chilling account of how a hostile, destructive group can manipulate the U.S. judicial system. It is a mesmerizing journey into one of the United States's darkest corners, a story that stretches over three states and deep into the history of the powerful Mormon Church.

Eternity Street: Violence and Justice in Frontier Los Angeles John Mack Faragher 2016-01-11

"[A] fascinating account of the twisted threads of murder, ethnic violence and mob justice in 19th century Southern California." —Jill Leovy, author

of *Ghettoside: A History of Murder in America*, in the Los Angeles Times Los Angeles is a city founded on blood. Once a small Mexican pueblo teeming with Californios, Indians, and Americans, all armed with Bowie knives and Colt revolvers, it was among the most murderous locales in the Californian frontier. In *Eternity Street: Violence and Justice in Frontier Los Angeles*, "a vivid, disturbing portrait of early Los Angeles" (Publishers Weekly), John Mack Faragher weaves a riveting narrative of murder and mayhem, featuring a cast of colorful characters vying for their piece of the city. These include a newspaper editor advocating for lynch laws to enact a crude manner of racial justice and a mob of Latinos preparing to ransack a county jail and murder a Texan outlaw. In this "groundbreaking" (True West) look at American history, Faragher shows us how the City of Angels went from a lawless outpost to the sprawling metropolis it is today. To Die For Cecilia Elizabeth O'Leary
2018-06-05 July Fourth, "The Star-Spangled Banner," Memorial Day, and the pledge of allegiance are typically thought of as timeless and consensual representations of a national, American culture. In fact, as Cecilia O'Leary shows, most trappings of the nation's icons were modern inventions that were deeply and bitterly contested. While the Civil War determined the survival of the Union, what it meant to be a loyal American remained an open question as the struggle to make a nation moved off of the battlefields and into cultural and political terrain. Drawing upon a wide variety of original

sources, O'Leary's interdisciplinary study explores the conflict over what events and icons would be inscribed into national memory, what traditions would be invented to establish continuity with a "suitable past," who would be exemplified as national heroes, and whether ethnic, regional, and other identities could coexist with loyalty to the nation. This book traces the origins, development, and consolidation of patriotic cultures in the United States from the latter half of the nineteenth century up to World War I, a period in which the country emerged as a modern nation-state. Until patriotism became a government-dominated affair in the twentieth century, culture was raged throughout civil society over who had the authority to speak for the nation: Black Americans, women's organizations, workers, immigrants, and activists all spoke out and deeply influenced America's public life. Not until World War I, when the government joined forces with right-wing organizations and vigilante

groups, did a racially exclusive, culturally conformist, militaristic patriotism finally triumph, albeit temporarily, over more progressive, egalitarian visions. As O'Leary suggests, the paradox of American patriotism remains with us. Are nationalism and democratic forms of citizenship compatible? What binds a nation so divided by regions, languages, ethnicity, racism, gender, and class? The most thought-provoking question of this complex book is, Who gets to claim the American flag and determine the meanings of the republic for which it stands?

World War II Soviet Armed Forces (3) Nigel Thomas 2013-01-20 This book presents a detailed analysis of the Soviet armed forces during the final days of the war, covering the soldiers that successfully turned the tide against the Nazi onslaught and pushed it back into Germany itself. This final part of the series documents the Red Army's push through Germany to Berlin, which eventually culminated in the surrender of the German forces to the Allies in 1945. It also offers a detailed breakdown of all the armed forces that

conducted the offensive campaigns on the Eastern Front, including the army, air force, paratroopers, navy and NKVD troops. Its colourful illustrations also include the uniforms and organizations of the Russian forces serving against Japan until the eventual surrender of all Japanese Imperial forces in August 1945.

Handbook of Research on Lifestyle Sustainability and Management Solutions Using AI, Big Data Analytics, and Visualization Iyer, Sailesh Suryanarayan 2021-12-24 The sudden outbreak of the COVID-19 pandemic has curbed human lifestyle by imposing restrictions on regular daily movements that had been taken for granted. Due to the pandemic, the welfare segment has received more attention, and every possible effort is being made to prioritize the services at the top. This can be made possible while using the latest tools, technologies, and resources that impact the human culture and welfare of well-being. Novel methods and devices that make the welfare services more efficient, adaptive, transparent, and cost-effective need to be

explored. The Handbook of Research on Lifestyle Sustainability and Management Solutions Using AI, Big Data Analytics, and Visualization offers extensive research on lifestyle management and services that contribute towards indication, detection, conduction, protection, and technological enhancement including machine learning, deep learning, artificial intelligence, big data analytics, and visualization. It also provides mechanisms that can improve lifestyle monitoring and help in increasing the immunity of the human body. Covering topics such as big data, robot therapy, and wearable technology, it is ideal for students, researchers, technologists, IT specialists, computer engineers, systems engineers, data scientists, doctors, hospital administrators, engineers, academicians, and technology providers.

The Streets of San Francisco Christopher Lowen Agee 2014-03-31 During the Sixties the nation turned its eyes to San Francisco as the city's police force clashed with movements for

free speech, civil rights, and sexual liberation. These conflicts on the street forced Americans to reconsider the role of the police officer in a democracy. In *The Streets of San Francisco* Christopher Lowen Agee explores the surprising and influential ways in which San Francisco liberals answered that question, ultimately turning to the police as partners, and reshaping understandings of crime, policing, and democracy. *The Streets of San Francisco* uncovers the seldom reported, street-level interactions between police officers and San Francisco residents and finds that police discretion was the defining feature of mid-century law enforcement. Postwar police officers enjoyed great autonomy when dealing with North Beach beats, African American gang leaders, gay and lesbian bar owners, Haight-Ashbury hippies, artists who created sexually explicit works, Chinese American entrepreneurs, and a wide range of other San Franciscans. Unexpectedly, this police independence grew

into a source of both concern and inspiration for the thousands of young professionals streaming into the city's growing financial district. These young professionals ultimately used the issue of police discretion to forge a new cosmopolitan liberal coalition that incorporated both marginalized San Franciscans and rank-and-file police officers. The success of this model in San Francisco resulted in the rise of cosmopolitan liberal coalitions throughout the country, and today, liberal cities across America ground themselves in similar understandings of democracy, emphasizing both broad diversity and strong policing.

Black Cat Weekly #32 Robert Sheckley
Welcome to Black Cat Weekly #32. This issue,
we have more original stories than ever before.

Editors Michael Bracken and Cynthia Ward have brought in new tales by Wil A. Emerson and the writing team of Jayme Lynn Blaschke and Don Webb, and I snagged magazine rights to Mel Gilden's new novel, *The Case by Case Casebook of Emily Silverwood*. Mel's story is a new and thoroughly modern take on the *Mary Poppins* theme. Wil Emerson has a study on the dynamics of detective partners. And Blaschke and Webb's story (as Cindy Ward put it) "reveals the connections between Nietzsche's abyss, Lovecraft's god-monsters and non-Euclidean spaces, and Cordwainer Smith's monsters of subspace." Wow! Not to be outdone, Barb Goffman acquired Stacy Woodson's first story, which won the Ellery Queen's Mystery Magazine Reader's Award. And, of course, we have a solve-it-yourself mystery from Hal Charles, a historical adventure novel from Edison Marshall, and a slew of great science fiction stories from such masters as Henry Slesar, and Edmond Hamilton. And a World War II fantasy from Malcolm

Edwards. Here's the lineup: Non-Fiction: "Speaking with Robert Sheckley," conducted by Darrell Schweitzer [interview] Mysteries / Suspense / Adventure: "Insieme," by Wil A. Emerson [Michael Bracken Presents short story] "An Eggcellent Equation," by Hal Charles [solve-it-yourself mystery] "Paper Caper," by James Holding [short story] "Duty, Honor, Hammett," by Stacy Woodson [Barb Goffman Presents short story] *The Infinite Woman*, by Edison Marshall [novel] Science Fiction & Fantasy: *It Gazes Back*," by Jayme Lynn Blaschke and Don Webb [Cynthia Ward Presents short story] *The Case by Case Casebook of Emily Silverwood*, by Mel Gilden [serialized novel] "Vengeance in Her Bones," by Malcolm Jameson [short story] "The Man Who Liked Lions," by John Bernard Daley [short story] "A Message from Our Sponsor," by Henry Slesar [short story] *Crashing Suns*, by Edmond Hamilton [novel]
