Weidman 2020-02-17 This book celebrates the contributions of John Weidman and his colleagues to the understanding of student socialization in higher education. It includes innovative chapters reflecting new approaches to higher education student socialization with respect to students of color, gender, STEM, and students in higher education systems outside the USA. Specifically, the book examines socialization between and within in a range of groups, including national, international and minority students, parents, doctoral students, early career faculty, and scholarly practitioners. Whether one samples only some of the articles that constitute this book or reads all of them, the professional payoff will be substantial. Kenneth A. Feldman, Professor of Sociology, Stony Brook University John Weidman has made a number of groundbreaking contributions to our understanding of student socialization in postsecondary education. Wat maakt het leven nog de moeite waard als je de dood in de ogen kijkt? Wat doe je als al je dromen over een toekomst plaats moeten maken voor een miserabel noodlot? Wat betekent het om een kind te krijgen en nieuw leven op aarde te zetten terwijl je eigen leven langzaam wegebt? Paul Kalanithi stierf in maart 2015, terwijl hij de laatste hand legde aan zijn memoires. Zijn wijze observaties en rijke inzichten in het leven zijn hartverscheurend. Democratizing Higher Education Policy M.T. Sehoole 2013-10-14 This book was written with the purpose of analyzing the challenges faced by the post-apartheid government in South Africa with regard to reform of higher education. It covers the apartheid context of higher education, resistance to the system and its ultimate demise, democratic processes in post-apartheid reform agenda and how this agenda was emptied of its radical content as a result of global and local pressures. Highlighted are key constraints in the reform process, including the compromise pact agreed upon between the apartheid government and the ruling African National Congress, the rapidly globalizing environment underpinned by neoliberal principles within which South Africa's transition took place, shifts in macro-economic policies of government towards neo-liberal policy, the inheritance of the bureaucracy and the inexperience of new government officials. These are presented in a narrative style that combines the author's experience, the voices of key players involved and important data from a range of documentary sources. This is the first single authored book in post-apartheid South African that has systematically looked at higher education reform.
