Supporting Meaningful Interactions in Early Childhood Education and Care OECD 2021-06-28
Children's learning, development and well-being are directly influenced by their daily interactions with other children, adults, their families and the environment. This interactive process is known as "process quality", and leads to a key question - which policies set the best conditions for children to experience high-quality interactions in early childhood education and care (ECEC) settings?

Crespar Findings

(1994-1999) A. Wade Boykin

2014-10-13 This double

issue presents summaries of

the scholarly and practical-

reform accomplishments of

the first five years of the

Center for Research on the

Education of Students

Placed at Risk (CRESPAR).

This bold, five-year initiative

addressed several of the

problems that most directly

challenge the values and

practical aspirations of

modern democracies. The

included articles emphasize

how CRESPAR has focused

on the schools in many of

America's most challenging

communities. It has both

helped local schools improve

themselves and advanced

the nation's research base.

This issue was written in

commemoration of the life

and work of John Henry

Hollifield, Jr., founding

coeditor. For 28 years,

Hollifield served as an editor

and administrator at Johns

Hopkins University's Center

for Social Organization of

Schools. When JESPAR was

just an idea, Hollifield was

one of the people who most

strongly advocated its

development. He had a

ready smile, a fine editorial

touch, and a relentless will

to produce each excellent

issue. This issue,

summarizing much of the

research from CRESPAR's

first five years, is presented

by the full team of authors

in his loving memory.

No Size Fits All Richard

Striner 2020-01-06 "No Size

Fits All" is a book whose

time has come--a book that

offers a proposal that could

revolutionize public school

policies in the United States at the federal, state and local levels. The book calls upon Congress to require all public school systems that benefit from federal funding to offer parents and children a choice of alternative schools, some of which would use the time-tested Montessori, Waldorf and Sudbury methods to give American students more freedom in determining what they study and when. These alternative schools would be exempt from the broadly unpopular Common Core testing regime.

Urban Educational Identity Sara M. Childers 2016-09-13 WINNER 2017 O.L. Davis, Jr. AATC Outstanding Book in Education Award WINNER 2017 American Educational Studies Association Critics Choice Award Through rich ethnographic detail, *Urban Educational Identity* captures the complexities of urban education by documenting the everyday practices of teaching and learning at a high-achieving, high-poverty school.

Drawing on over two years of intensive fieldwork and analysis, author Sara M. Childers shows how students, teachers, and parents work both within and against traditional deficit discourses to demonstrate the challenges and paradoxes of urban schooling. It offers an up-close description of how macro-government policies are interpreted, applied, and

even subverted for better or worse by students as active agents in their own education. The book moves on to develop and analyze the concept of "urban cachet," tracing how conceptions of race and class were deeply entwined with the very practices for success that propelled students towards graduation and college entrance. A poignant, insightful, and practical analysis, *Urban Educational Identity* is a timely exploration of how race and class continue to matter in schools.

To Write in the Light of Freedom William Sturkey 2015-02-16 Fifty years after Freedom Summer, *To Write in the Light of Freedom* offers a glimpse into the hearts of the African American youths who attended the Mississippi Freedom Schools in 1964. One of the most successful initiatives of Freedom Summer, more than forty Freedom Schools opened doors to thousands of young African American students. Here they learned civics, politics, and history, curriculum that helped them instead of the degrading lessons supporting segregation and Jim Crow and sanctioned by White Citizen's Councils. Young

people enhanced their self-esteem and gained a new outlook on the future. And at more than a dozen of these schools, students wrote, edited, printed and published their own newspapers. For more than five decades, the Mississippi Freedom Schools have served as powerful models of educational activism. Yet, little has been published

that documents black Mississippi youths' responses to this profound experience.
