**Patriots Twice** Stephen M. Hood 2020-07-21 A “timely” look at the roles played by ex-

Confederates after the war, in politics, academia, the military, industry, and more (Midwest Book Review). The long and bloody American Civil War claimed the lives of more than 700,000 men.

When it ended, former opponents worked to rebuild their reunified nation and move into the future together. Many people will find that surprising—especially in an era witnessing the

destruction or removal of Confederate monuments and the desecration of Confederate cemeteries. In this unique and timely book, award-winning author Stephen M. Hood identifies

more than three hundred former Confederate soldiers, sailors, and government officials who reintegrated into American society and attained positions of authority and influence in the

federal government, the United States military, academia, science, commerce, and industry. Their contributions had a long-lasting and positive influence on the country we have today. For

example, ten postwar presidents appointed former Confederates as Supreme Court justices, secretaries of the U.S. Navy, attorneys general, and a secretary of the interior. Dozens of former

Southern soldiers were named U.S. ambassadors and consuls, and eight were appointed generals who commanded troops during the Spanish-American War. Former Confederates were

elected mayors of such unlikely cities as Los Angeles, Minneapolis, and Santa Fe, and served as governors of multiple non-Confederate states and territories. Ex-Southern soldiers became

presidents of professional societies including the American Bar Association and the American Medical Association, to name only a few. Others paved the way in science and engineering by

leading the American Society of Civil Engineers, the American Chemical Society, the American Association for the Advancement of Science, and the Geological Society of America. One former

Confederate co-founded the environmental preservation group Sierra Club, and another was president of the Society for Classical Studies. Former soldiers in gray founded or co-founded

many colleges and universities—some exclusively for women and newly freed African-Americans. Other former Rebels served as presidents of prominent institutions, including the University of

California, Berkeley, and taught at universities outside the South including Harvard, Yale, the

University of Wisconsin-Madison, Johns Hopkins, and Amherst College. Several others served on the governing boards of the United States Military Academy at West Point and the United States Naval Academy at Annapolis. Every reader of Patriots Twice has benefited from the post-Civil War reconciliation when former combatants put down their swords, picked up their plowshares, and accepted the invaluable contributions of these (and thousands of other) former Confederates. The men who carried the bayonets found common cause and moved on together. This is an important concept everyone should—no, must—embrace to keep America united, strong, and free.

Common Men in the War for the Common Man Dr. Verel R. Salmon 2013-02-21 This is the never before told story of hundreds of Americans who went to war in defense of their beliefs, to seek adventure and to see some of the world beyond their rural Pennsylvania neighborhoods.

Developed largely in the words of the soldiers of the 145th Pennsylvania Infantry, Common Men highlights some of the men's lives before the war and then carries the reader through trials and triumphs from enlistment, Jubilant send-off, action from Antietam through Gettysburg and casualty, Democracy and the Union are sustained through the actions of common men, men not always given the best of orders.
