Keywords for Travel Writing Studies Charles Forsdick 2019-04-22

In its attention to the 'keywords of travel', *Keywords for Travel Writing Studies* takes into account the established status of studies in travel writing and the field's significance for an audience beyond the academy. It responds to what might be described as the 'mobility turn' in the arts and humanities over the past two decades. Each entry in the volume is around 1,000 words, and the style is more essayistic than encyclopaedic, with contributors providing a reflection on their chosen keyword from a variety of disciplinary perspectives. The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension; the aim is to give an overview of each term in its historical and theoretical complexity, providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing. Each entry is complemented by an annotated bibliography of five essential items suggesting further reading.

Religion and Tourism Michael Stausberg 2011 This book explores the dynamic interaction between religion and tourism in the modern world. It considers questions such as: do travellers

leave their religion at home when they are touring " and what happens if not? what are the relationships between tourism and pilgrimage? what happens to religious performances, places and festivals that function as tourism attractions? Other chapters examine religious theme parks, wellness and spa tourism, the roles played by tourist guides, guidebooks and religious souvenirs, and the role of tourism as a major arena of religious encounters in the contemporary world. Surveying the growing body of work in the field, Michael Stausberg argues that tourism should be a major focus of research within religious studies.

Above the Death Pits, Beneath the Flag Jackie Feldman 2008

Israeli youth voyages to Poland are one of the most popular and influential forms of transmission of Holocaust memory in Israeli society. Through intensive participant observation, group discussions, student diaries, and questionnaires, the author demonstrates how the State shapes Poland into a living deathscapes of Diaspora Jewry. In the course of the voyage, students undergo a rite de passage, in which they are transformed into victims, victorious survivors, and finally witnesses of the witnesses. By viewing, touching, and smelling Holocaust-period ruins and remains, by accompanying the survivors on the sites of their suffering and survival, crying together and performing commemorative ceremonies at the death sites, students from a wide variety of family backgrounds become carriers of Shoah memory. They come to see the State and its defense as the romanticized answer to the Shoah. These voyages are a bureaucratic response to uncertainty and fluidity of identity in an increasingly globalized and fragmented society. This study adds a measured and compassionate ethical voice to ideological debates surrounding educational and cultural forms of encountering the past in contemporary Israel, and raises further questions about the representation of the Holocaust after the demise of the last living witnesses.

Tourism, Culture and Development Stroma Cole 2008 This book provides a holistic, multi-stakeholder picture of the first twenty years of tourism development in a remote region of Eastern Indonesia. It is a rich description of how tourism is intertwined with life in a non-western, marginal community. Based on anthropological methods, this ethnography is about tourism and socio-cultural change, tourists, conflict, globalisation, poverty and powerlessness.

Tourism, Transport and Travel Management M.R. Dileep 2019-03-19 The terms travel and tourism are often used interchangeably in tourism literature. This comprehensive textbook provides students with essential knowledge of the intricate relationship existing between travel, transport and tourism. The book analyses the structure, functions, activities, strategies and practices of each of the sectors in the travel industry, such as airlines, airports, tour operators, travel agencies and cruises. It is structured into six parts, covering all modes of transport (air, land and water), travel intermediation, the tour operation business and impacts and prospects for the future. International case studies are integrated throughout to showcase practical realities and challenges in the travel industry and to aid students' learning and understanding. Written in an accessible and engaging style, this is an invaluable resource for students of tourism, hospitality, transport and travel management courses.

Freedom to Play Norah L. Lewis 2006-01-01 "When we were children we made our own fun" is a frequent comment from those who were children in pre-television times. But what games, activities and amusements did children enjoy prior to the mid-1950s? Recollections of older Canadians, selections from writings by Canadian authors and letters written to the children's pages of agricultural publications indicate that for most children play was then, as now, an essential part of childhood. Through play, youngsters developed the physical, mental and emotional skills that helped them cope with life and taught them to get along with other children. In both rural and urban settings, children were generally free to explore their environment. They were sent outdoors to play by both parents and teachers. Their games were generally self-organized and physically active, with domestic animals acting as important companions and playmates. Children frequently made their own toys and equipment, and, since playing rather than winning was important, most children were included in games. Special days, holidays and organizations for children and youth provided welcome breaks from daily routines. Their lives were busy, but there was always time for

play, always time for fun. Norah Lewis has provided an entertaining view of the toys, games and activities in Canada and pre-confederate Newfoundland from approximately 1900 through 1955. Her book will be of interest to historians, educators and sociologists, as well as anyone who lived through, or wants to know more about, those early years in Canada, and the games children used to play.

We Are the Pathfinders Strong Willie Oliver 2000 We Are the Pathfinders Strong is the story of the men and women who dedicated themselves to the church's young people, and the young people who joined them in this exciting program. Around the world Adventist young people learn new skills and participate in fascinating activities, whether it be camping in the snow, exploring caves, witnessing to others, or serving as volunteers in humanitarian or civic outreaches. Whether you are a Pathfinder today, were many years ago, or would like to be... you'll find this book captures the joy and excitement of being a Pathfinder.

Quality Assurance and Certification in Ecotourism Rosemary Black 2007 Genuine ecotourism can have many positive impacts, particularly the conservation of biodiversity and cultural heritage and the creation of economic opportunities for local communities. While promoting these, it aims to eliminate negative impacts such as environmental degradation, cultural commoditisation and playground effects. Unfortunately, the concept is broadly misunderstood and its true definition is widely debated. It is often used as a marketing tool, with some operators taking advantage of the ecotourism label to attract more business while behaving in environmentally irresponsible ways. This book considers the important topic of quality control and accreditation in ecotourism, describing the mechanisms that can be implemented to ensure quality in all aspects of the industry, namely protected areas, businesses, products and tour guides.

Tourism, Heritage and National Culture in Java Heidi Dahles
2013-10-11 Based on anthropological fieldwork in the 1990s, this book provides an ethnographic perspective in its examination of the politics and policies of cultural tourism as they were played out under the Indonesian New Order regime. The successful New Order tourism policy ensured that tourism development both contributed to, and benefited from, increasing economic prosperity and a long stretch of political stability. However, that success has come at a price; the policy to encourage mainly 'high-quality' tourism revolved around carefully constructed and controlled tourist experiences that have led to local inequalities. The failure of this policy is analysed in a detailed case study of the city of Yogyakarta.

Gower, Swansea and Cardiff Dennis Kelsall 2011-04 Wales' capital city Cardiff has a thriving heritage and cultural scene, and is surrounded by the beautiful vale of Glamorgan, with its coastal fringes, pleasant villages and industrial tradition. Gower, lying to the west of Swansea, offers superb scenery, glorious sandy beaches, wooded valleys, open moorland and pretty villages. It is a fascinating and uniquely interesting area with superb and varied walking country that comprises a mixture of open moorland, steep hillsides, wooded valleys, fertile lowlands and a magnificent coastline. Added to this are medieval castles, picturesque churches and attractive villages and towns. The tremendous variety offered by the area is reflected in the interesting routes included within this guide.
