The Chinese Civil War, 1927-1949

The Civil Revolution in China MAO Min 2017-12-25 This is Part 1 of the book entitled "The Revival of China". The full book is about the revival of China in the 20th century and the first decade of the 21st century. This part of the book records how SUN Zhong-shan led people overthrowing the Qing Dynasty and established the Republic of China, how YUAN Si-kai and other warlords ruled China and how JIANG Jie-shi led the army unifying China. **China's Conservative Revolution** Brian Tsui 2018-04-30 Interweaving political, intellectual, cultural and diplomatic histories, Tsui demonstrates how the Guomindang's national revolution turned conservative after the 1927 anti-Communist coup and contributed to the ascendancy of the global radical right. This revisionist reading of Nationalist China will appeal to a wide range of students and scholars.

The Cultural Revolution and Overacting Tuo Wang 2014-09-24 This postmodern study of the Chinese Cultural Revolution examines the inner mechanism of the mass movement. Utilizing methodologies of cultural anthropology, linguistics, acting theory, and literary criticism, it reveals how people's performances of their everyday lives functioned as mechanisms of social control.

The Revival of China MAO Min 2017-12-28 The book is about the revival of China in the 20th century and the first decade of the 21st century. It has eight parts: (1) The civil revolution in China, (2) The countryside bases, (3) The Long Match of the Red Army, (4) The Anti Japanese War, (5) Decisive civil battles before the establishment of the People's Republic of China, (6) The Mao Era before the Great Cultural Revolution, (7) The Great Cultural Revolution, and (8) The Reform and opening up. This version of the book is without pictures.

White China John H. C. Sleeman 1933

Chinese Warlord Armies 1911–30 Philip Jowett 2012-02-20 Defeated in the Sino-Japanese War 1894-95 and the Boxer Rebellion of 1900, Imperial China collapsed into revolution and a republic was proclaimed in 1912. From the death of the first president in 1916 to the rise of the Nationalist Kuomintang government in 1926, the differing regions of this vast country were ruled by endlessly forming, breaking and re-forming alliances of regional generals who ruled as 'warlords'. These warlords acted essentially as local kings and much like Sengoku-period Japan, fewer, larger power-blocks emerged, fielding armies hundreds of thousands strong. In the midto late 1920s some of these regional warlords. This book will reveal each great warlord as well as the organization of their forces which acquired much and very varied weaponry from the west including the latest French air force bombers. They were also joined by Japanese, White Russian and some Western soldiers of fortune which adds even more colour to a fascinating and oft-forgotten period.

Contemporary China 1943

The Imperial China Trilogy Robert Elegant 2018-05-08 The complete New York Times–bestselling trilogy of historical fiction set in China, from an award-winning novelist and Pulitzer Prize finalist in journalism. Spanning over three centuries of Chinese history, New York Times–bestselling and Edgar Award–winning author Robert Elegant takes readers from the opulent courts and complex intrigue of the emperors to the bloody battlefields, and vividly recreates a richly detailed world where the quest for power and pleasure drives men and women to extremes of both loyalty and betrayal. In this special single-volume edition, the novels are presented in chronological historical order. Manchu: In this New York Times bestseller, soldier of fortune Francis Arrowsmith joins a Portuguese expedition to aid the decadent and corrupt Ming dynasty in its fight against the Manchu invaders. He embarks on an epic adventure that will merge his destiny with the fate of China itself. “Does for seventeenth-century China what James Clavell’s Shogun did for sixteenth-century Japan.” —The Christian Science Monitor Mandarin: In nineteenth-century China, imperial rule is crumbling as the Opium Wars and Taiping Rebellion rage. On the streets of Shanghai, a Jewish silk merchant tries to save his Chinese partner from a false accusation and corrupt penal system, while in the imperial palace the “Virtuous Concubine” Yehenala contrives to bear the opium-eating, syphilitic emperor’s only son, thus laying the foundation for her elevation to the pinnacle of power in China as the formidable empress dowager. “Exciting, historically accurate, a good read.” —The New York Times Dynasty: A New York Times bestseller, this epic of love and adultery, money and power, set amid the revolutionary turbulence of twentieth-century China, from the fall of the last emperor to the rise of Mao Tse-tung, follows the Seklpong dynasty of Hong Kong, a trading empire founded by Sir Jonathan, the illegitimate offspring of an Irish adventurer and his Chinese mistress, in all its triumphs, tragedies, betrayals, and bloodshed. “An action-packed novel . . . conjured up with perception and vigor.” —The New York Times Book Review

The New International Year Book 1946

Arming the Chinese Anthony B. Chan 2010-10-01 First published in 1982, this book remains the classic account of the arms trade in warlord China. The second edition includes a new preface that reframes the argument within the paradigm of critical militarism and state criminality. Arming the Chinese tells the story of the Western and Japanese merchants and governments who provided weapons to warlords for their expanding armies. Although the warlords were hearty individualists who retained control over domestic affairs and rarely relied on single foreign suppliers, the armaments trade, Chan argues, was a new form of imperialism, which perpetrated the continued Western and Japanese domination of China.

The Reluctant Combatant Kitamura Minoru 2014-04-15 The Reluctant Combatant offers proof that Japanese political leaders were reluctant to engage China in a full-scale conflict during the Second Sino-Japanese War. This book identifies several key aspects of the political context surrounding the Second Sino-Japanese War, including the extreme fragility of the national united front against Japan, the view of Soviet Russia as Japan’s principal potential adversary, and the potential threat to Japanese national defense a protracted war with China would pose. This book reveals that the Communists, the National Government, local gentry, peasants, and bandits occasionally collaborated with the enemy—Japanese troops—to expand their spheres of influence.

Nanjing Never Cries Hong Zheng 2016-08-28 Set in the city of Nanjing during the time of the Sino-Japanese war (1937–1945), this novel tells the story of four people caught up in the violence and tumult of these years: John Winthrop and his MIT classmate, the brilliant Chinese physicist Calvin Ren (Ren Kewen); Judy, Calvin’s Chinese-American wife; and the beautiful and determined young woman Chen May. John and Calvin take up positions at Nanjing’s National Central University and collaborate on a top-secret project to design and build warplanes to enable the Chinese to defend themselves against Japanese bombers. Meanwhile, John enjoys his new life in Nanjing. He helps the lovely May with her English, falling a little in love with her; he shops for antiques; meets with Chiang Kai-Shek and Madame Chiang; and once attends an evening’s entertainment at one of Nanjing’s notorious Wine Houses. But when the Japanese invade, there is no safe place in the city. The Japanese murder, torture, and rape indiscriminately. (The invasion and occupation were described by the historian Iris Chang as “the forgotten holocaust.”) May sees her own family killed; John works in a shelter for women and children; Calvin’s family flees the city while Calvin, weakened by overwork, stays behind to work on the warplane project. Each tries to survive against the odds. May vows to hunt down the soldier who murders her father. When the war is over, she finds him sweeping Nanjing streets as a war prisoner. The story then ends with the force of an explosion. Vivid and disturbing, *Nanjing Never Cries* offers a compelling story of the horror of war and the power of love and friendship.

The Thirty Eight Years of the Republic of China in the Mainland MAO Min 2017-12-25 This is Selected topic 7 of the Selected Topics from The Revival of China. The full book is about the revival of China in the 20th century and the first decade of the 21st century. This topic is about the thirty-eight years of the Republic of China in the mainland. It covers the Xinhai Revolution, overthrowing of the Qing dynasty, establishment of the Republic of China, Warlord rulings of China, cooperation between GMD and CPC, unification of China by JIANG Jie-shi, encircle and suppress the Red Army led by CPC, anti-Japanese fights after the September 18th accident, the Anti Japanese War, decisive battles with CPC, and withdrawing from the mainland to Taiwan Island. In the Appendix[situation of Republic of China in Taiwan is described.

A Boy from China Richard T. Cheng 2021-05-03 The information about the book is not available as of this time.

Chinese Soldier vs Japanese Soldier Benjamin Lai 2018-10-18 In July 1937, the Marco Polo Bridge Incident sparked a bloody conflict between Chinese and Japanese forces that would rage across China and beyond for more than eight years. The two sides’ forces brought very different strengths and limitations to the conflict. In 1937 China was divided into factions, each controlled by warlords with independent forces, and there was no unified Chinese army. In order to fight the Japanese Chiang Kai-shek, the nominal leader of Nationalist China, was compelled to do deals with these regional powers. For their part, the Japanese employed ground forces broadly comparable to those fielded by Western powers, including modern artillery and tanks. Featuring specially commissioned artwork and drawing upon an array of sources, this study investigates the origins, training, doctrine and armament of the Chinese and Japanese forces who fought in the opening stages of the Second Sino-Japanese War.

China’s Wars Philip Jowett 2013-11-20 China is one of the great powers of the modern world. Yet in the late 19th century China was a ramshackle and isolated medieval empire upon whom the European colonial powers could impose their wishes at will. China’s Wars describes the series of conflicts from 1894 to 1949 that forged modern China, from colonial clashes such as the Boxer Rebellion, through the chaotic years of warlord domination to the Japanese invasion, the Second World War and the bitter Civil War that followed. Previously unpublished photographs, contemporary pictures and specially-commissioned maps illustrate these tumultuous events and the men who fought them, events that would end with the eventual triumph of the Communist Party and the rise of modern China.

The White-haired Girl Jaia Sun-Childers 1997 Jaia Sun-Childers was born in Beijing, China, in 1964, and came of age during one of the most dramatic episodes in human history, the Chinese Cultural Revolution. In “The White-Haired Girl”, the personal and historic events that shaped Jaia’s life and country come alive.

China Joseph W. Esherick 2013-12-17 The Qing dynasty was China’s last, and it created an empire of unprecedented size and prosperity. However in 1911 the empire collapsed within a few short months, and China embarked on a revolutionary course that lasted through most of the twentieth century. The 1911 Revolution ended two millennia of imperial rule and established the Republic of China, but dissatisfaction with the early republic fuelled further revolutionary movements, each intended to be more thoroughgoing than the last, from the National Revolution of the 1920s, to the Communist Revolution, and finally the Cultural Revolution. On the centenary of the 1911 Revolution, Chinese scholars debated the causes and significance of the empire’s collapse, and this book presents twelve of the most important contributions. Rather than focusing on Sun Yat-sen’s relatively weak and divided revolutionary movement, as much previous scholarship has, these studies examine the internal dynamics of political and socio-economic change in China. The chapters reveal how reforms in education, army organization, and constitutional rule created new social forces and political movements that undermined dynastic legitimacy within China and on its frontiers. Through detailed analyses, using new archival, memoir, diary, and newspaper sources, the authors cast new light on the sudden collapse of an empire that many thought was at last embarked on a road to reform and national rejuvenation. China: How the Empire Fell will be of huge interest to students and scholars of modern Chinese history as well as those of contemporary China.

Jewel of the Kingdom Betty Wong 2012-05-31 In 1890, the authors maternal great-grandfather Chow Chih was the firstborn son of a wealthy family in Canton, China, who could have pursued virtually any career. But China was swirling in revolutions and counterrevolutions as warlords and foreign interlopers fought for control after 2,000 years of imperial rule. Dr. Sun Yat-sen said China had become the poorest and weakest nation in the world. We occupy the lowest position in international affairs. Other men are the carving knife and serving dish; we are the fish and the meat. Chow chose to fight for his country and graduated as an officer from the first class of the prestigious Whampoa Military Academy in 1924. His military prowess caught the eye of a powerful warlord in north China who tried to woo him to lead an army. Chow chose instead to join Sun Yat-sens new national army to fight the warlords and hopefully unify a splintered China. Chow served as a general for Sun Yat-sen and later became a four-star general for Chiang Kai-shek who described Chow as having brilliance in all things military and deserves respect as the supreme commander of the military world. Like Sun Yat-sen, Chow was described by his soldiers as being selfless. Despite his high rank, Chow was regularly called to the front lines of Chinas civil war and the second Sino-Japanese War. As a voracious reader of Sun Tzus The Art of War, Chow was a military genius famed for leading one hundred battles during the Chinese Civil War and World War II. Would he be able to successfully maneuver in a post-Nationalist government world? As the Communists took over to rule China in 1949, the East Coast of China seemed in chaos with fellow Nationalists jumping onto steamships and trains to

escape to Hong Kong and Taiwan. But Chow had fought hard and long to unify his beloved China and chose to stay behind. He hoped he would be able to read the new Communist regime that was bent on hard change to drive China into modern times. The chaos of the Communist takeover then turned to terror.

Chartered Schools Nancy Beadie 2014-04-08 First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Pioneers of Modern China

Imperial Chinese Armies 1840-1911 Philip Jowett 2016-04-21 An in-depth analysis of the Chinese Armies that fought a series of increasingly fractious wars over nearly a century. Beginning with a run through of the Chinese forces that combated the British and French during the two Opium Wars, this history goes on to trace the forces who were drawn into internal wars and rebellions in the 1850s and 60s, the open warfare in North Vietnam, the string of defeats suffered during the First Sino-Japanese war and the Boxer Rebellion. Providing an unparalleled insight into the dizzying array of troop types and unique uniforms, this is a history of the sometimes-painful modernization of China’s military forces during one of her most turbulent periods of history.

Military Intelligence Professional Bulletin 1994

A Century of Student Movements in China Xiaobing Li 2019-12-15 In this book the authors offer their unique perspectives on the important roles Chinese students and intellectuals played in the shaping of the twentieth-century China. Their answers to these pivotal questions explore new nationalistic spirit, modern world-views, and willingness of self-sacrifice, which had attributed to the spontaneous actions of the students as a “New Culture” emerged during the May Fourth Movement. These articles show how China nurtured these spontaneous student movements, even though the Nationalist Party in the Republic of China and the Communist Party in the People’s Republic had exerted tight control over schools. Both governments established organizations as well as operations among students that effectively turned some of the student movements into a political instrument by the parties for their own agenda.

The Revival of China, Volume 1 MAO Min 2017-12-27 This is Volume 1 of the book entitled "The Revival of China". The full book is about the revival of China in the 20th century and the first decade of the 21st century, and has eight parts. This volume contains the first four parts of the full book, and covers the history of overthrowing the Qing Dynasty and the establishment of Republic of China [Part 1]the establishment of the Red Army in countryside bases (Part 2), the Long March of the Red Army (Part 3) and the war against Japanese invasion (Part 4).

Mud and Soldiers Ashihei Hino 1939

China at War 1945 Includes selections from the daily bulletins of the China Information Committee.

Eight Hundred Heroes Stephen Robinson Acclaimed historian Stephen Robinson brings to life a legendary last stand. Shanghai 1937. With invading Japanese troops poised to capture one of the world’s greatest cities after almost three months of brutal urban warfare, the Chinese Army begins to retreat – except for a single battalion that stays behind to fight. These soldiers led by Lieutenant Colonel Xie Jinyuan, known as the ‘Eight Hundred Heroes’, defended Sihang Warehouse – a six-storey concrete building and natural fortress. The men repulsed waves of Japanese attacks with intense bravery as thousands of spectators looked on from the relative safety of the British Concession inside Shanghai’s International Settlement. Western journalists with front row seats to the spectacle spread the story across the globe as the plight of the heroes captured the sympathy of the world. Their valour raised Chinese morale as did the actions of the heroine Yang Huimin, a Girl Guide who delivered a Chinese flag to the defenders that flew over Sihang Warehouse as a beacon of hope. Eight Hundred Heroes is an in-depth account, resulting from extensive research that for the first time comprehensively utilises first-hand accounts of the Chinese participants and the observations of westerners who witnessed the battle at close range. It also explains how this incredible feat of heroism became an enduring myth that helped define modern China.

Religion and nationalism in Chinese societies Cheng-Tian Kuo 2017-11-16 Religion and Nationalism in Chinese Societies explores the interaction between religion and nationalism in the Chinese societies of mainland China, Taiwan and Hong Kong. On the one hand, state policies toward religions in these societies are deciphered and their implications for religious freedom and regional stability are evaluated. On the other hand, Chinese Buddhism, Tibetan Buddhism, Daoism, Christianity, Islam and folk religions are respectively analyzed in terms of their theological, organizational and political responses to the nationalist modernity projects of these states. What is new in this book on Religion and Nationalism in Chinese Societies is that the Chinese state has strengthened its control over religion to an unprecedented level. In particular, the Chinese state has almost completed its construction of a state religion called Chinese Patriotism. But at the same time, what is also new is the emergence of democratic civil religions in these Chinese societies, which directly challenge the Chinese state religion and may significantly transform their religion-state relations for better or for worse.

Japan Magazine 1939

Masanobu Tsuji’s ‘Underground Escape’ from Siam after the Japanese Surrender Nigel Brailey 2011-10-30 First published in translation from the Japanese in 1952, and long out of print, Colonel Tsuji’s account of his escape into Thailand from the Japanese surrender in Bangkok in 1945, and then finding his way into China before returning to Japan in 1948, is a remarkable story, which has its place in the military history of the period.

Chiang Kai-shek’s Secret Past Joachim Krause 2019-03-08

The Aftermath of the Chinese Nationalist Revolution Kathryn Gay 2008-09-01 Describes the history of China in the first half of the twentieth century, a period of intense civil war following the overthrow of the Manchu dynasty, which in turn led to the establishment of a communist government under Mao Tse-tung.

Folk Art and Modern Culture in Republican China Felicity Lufkin 2016-01-21 Folk art is now widely recognized as an integral part of the modern Chinese cultural heritage, but in the early twentieth century, awareness of folk art as a distinct category in the visual arts was new. Internationally, intellectuals in different countries used folk arts to affirm national identity and cultural continuity in the midst of the changes of the modern era. In China, artists, critics and educators likewise saw folk art as a potentially valuable resource: perhaps it could be a fresh source of cultural inspiration and energy, representing the authentic voice of the people in contrast to what could be seen as the limited and elitist classical tradition. At the same time, many Chinese intellectuals also saw folk art as a problem: they believed that folk art, as it was, promoted superstitious and backward ideas that were incompatible with modernization and progress. In either case, folk art was too important to be left in the hands of the folk: educated artists and researchers felt a responsibility intervene, to reform folk art and create new popular art forms that would better serve the needs of the modern nation. In the early 1930s, folk art began to figure in the debates on social role of art and artists that were waged in the pages of the Chinese press, the first major exhibition of folk art was held in Hangzhou, and the new print movement claimed the print as a popular artistic medium while, for the most part, declaring its distance from contemporary folk printmaking practices. During the war against Japan, from 1937 to 1945, educated artists deployed imagery and styles drawn from folk art in morale-boosting propaganda images, but worried that this work fell short of true artistic accomplishment and pandering to outmoded tastes. The questions raised in interaction with folk art during this pivotal period, questions about heritage, about the social position of art, and the exercise of cultural authority continue to resonate into the present day.

The African American Encounter with Japan and China Marc S. Gallicchio 2000 African American Encounter with Japan and China: Black Internationalism in Asia, 1895-1945

Sun Yat-Sen, Nanyang and the 1911 Revolution Lai To Lee 2011 “In view of the 100th anniversary of the 1911 Revolution and Sun Yat-sen’s relations with the Nanyang communities, the Institute of Southeast Asian Studies and the Chinese Heritage Centre came together to host a two-day bilingual conference on the three-way relations between Sun Yat-sen, Nanyang and the 1911 Revolution in October 2011 in Singapore. This volume is a collection of papers in English presented at the conference”--Backcover.

The Chinese and the Japanese Akira Iriye 2014-07-14 Together these essays tell the story of how two highly self-conscious cultures, with long and proud traditions of their own, have defined themselves both with respect to one another and under the influence of the West. Originally published in 1980, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

History and Nationalist Legitimacy in Contemporary China Robert Weatherley 2017-08-30 This book examines how the Chinese Communist Party (CCP) has attempted to bolster its nationalist legitimacy through the utilisation of Chinese history. The authors identify two different modes of nationalism - aggressive and consensual - both of which are linked to the historical memory of the late Qing Dynasty and Republican era. Aggressive nationalism dwells on China’s traumatic “century of humiliation” and is intended to incite popular resentment towards former imperialist powers (particularly Japan and the US) whenever they are deemed to still be acting in a provocative manner in their dealings with China. The aim is to remind the Chinese people that the CCP liberated China from imperialism after 1949 and has since restored national pride. Consensual nationalism is more conciliatory, emphasising common historical ties with the Guomindang (KMT) during the Second Sino-Japanese War and the Republican era. Here, the CCP is trying to promote itself as the party of national harmony and unity, with the long-term objective being peaceful reunification with Taiwan. However, the public response in China has not always been supportive of the CCP’s claims to be the sole defender of Chinese national interests. Some critics have suggested that China would have been better off if the KMT had won the civil war instead of the CCP. Others have insisted that the party is hopelessly weak on issues of national importance and that China is no stronger now than it was during the final throes of the much-hated Qing Dynasty. This book will be of interest to research students and scholars of Chinese politics, history and international relations.

Olympic Pride, American Prejudice Deborah Riley Draper 2020-02-04 In this “must-read for anyone concerned with race, sports, and politics in America” (William C. Rhoden, New York Times bestselling author), the inspirational and largely unknown true story of the eighteen African American athletes who competed in the 1936 Berlin Olympic Games, defying the racism of both Nazi Germany and the Jim Crow South. Set against the turbulent backdrop of a segregated United States, sixteen Black men and two Black women are torn between boycotting the Olympic Games in Nazi Germany or participating. If they go, they would represent a country that considered them second-class citizens and would compete amid a strong undercurrent of Aryan superiority that considered them inferior. Yet, if they stayed, would they ever have a chance to prove them wrong on a global stage? Five athletes, full of discipline and heart, guide you through this harrowing and inspiring journey. There’s a young and feisty Tidyé Pickett from Chicago, whose lithe speed makes her the first African American woman to compete in the Olympic Games; a quiet Louise Stokes from Malden, Massachusetts, who breaks records across the Northeast with humble beginnings training on railroad tracks. We find Mack Robinson in Pasadena, California, setting an example for his younger brother, Jackie Robinson; and the unlikely competitor Archie Williams, a lanky book-smart teen in Oakland takes home a gold medal. Then there’s Ralph Metcalfe, born in Atlanta and raised in Chicago, who becomes the wise and fierce big brother of the group. From burning crosses set on the Robinsons’s lawn to a Pennsylvania small town on fire with praise and parades when the athletes return from Berlin, Olympic Pride, American Prejudice has “done the world a favor by bringing into the sunlight the unknown story of eighteen black Olympians who should never be forgotten. This book is both beautiful and wrenching, and essential to understanding the rich history of African American athletes” (Kevin Merida, editor-in-chief of ESPN’s The Undeclared).

The Rise to Power of the Chinese Communist Party: Documents and Analysis Tony Saich 2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement. They show how the Chinese Communist Party interpreted the revolution, how it devised policies to meet changing circumstances and how these policies were communicated to party members and public.
