How do athletes overcome fears, slumps, mental blocks, or injuries? How do they deal with stress and anxiety, be it from competitors, teammates, audiences, parents, coaches, or themselves? What psychological techniques prove effective in mental training for peak performance, maintaining concentration, motivation, and competitive drive? How can an athlete enhance his or her commitment to a training

regimen, or how might the average person better adhere to a program of fitness and exercise? Readers will find answers to these questions and more in the *Encyclopedia of Sport and Exercise Psychology*.
