Environmental Evasion Lloyd Willis 2012-01-02 Brings ecocriticism into conversation with critical American studies approaches to literary canon formation.

Studies in the Zohar Yehuda Liebes 1993-01-01 This book deals with the "Book of Splendor" (Sefer ha-Zohar), the greatest achievement of Kabbalah and one of the most influential sources of Western mysticism. This book offers a new interpretation of the Zohar, analyzing both its theoretical content and its historical context; it also brings the theory and the history together by indicating the personal and autobiographical elements in the Zohar's teachings. The author delves into the issues of the messianic elements of the Zohar, the way it was written, and its relationship to Christianity, Gnosticism, and Talmudic literature.

Communal Webs Tamar Katriel 1991-08-13 This book brings together insights derived from a detailed exploration of Israeli cultural patterns of communication, highlighting their role in the processes of culture formation, maintenance, and change. Katriel's ethnographic examples provide a richly-textured account of Israeli cultural experience, illustrating the potential of a cultural analysis grounded in the study of ideologically-informed communicative practices.

Play Among Books Miro Roman 2021-12-06 How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an "infinite flow" of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.

Wonder Woman Joan Ormrod 2020-02-20 Wonder Woman was created in the early 1940s as a paragon of female empowerment and beauty and her near eighty-year history has included seismic socio-cultural changes. In this book, Joan Ormrod analyses key moments in the superheroine's career and views them through the prism of the female body. This book explores how Wonder Woman's body has changed over the years as her mission has shifted from being an ambassador for peace and love to the greatest warrior in the DC transmedia universe, as she's reflected increasing technological sophistication, globalisation and women's changing roles and ambitions. Wonder Woman's physical form, Ormrod argues, is both an articulation of female potential and attempts to constrain it. Her body has always been an amalgamation of the feminine ideal in popular culture and wider socio-cultural debate, from Betty Grable to the 1960s 'mod' girl, to the Iron Maiden of the 1980s.

Studies in Ecstatic Kabbalah Moshe Idel 1988-01-01 This book presents important topics regarding the more mystical trend of Kabbalah—the ecstatic Kabbalah.

It includes the mystical union, the world of imagination, and concentration as a spiritual technique. The emphasis in the text is on the interaction between the "origina" Spanish stage of Kabbalah and Muslim mysticism in the East, mainly in the Galilee. The influence of the Kabbalistic-Sufic synthesis on the later developments of Jewish mysticism is traced, thereby providing a more precise understanding of the history of Kabbalah as an interplay between the theosophical and ecstatic mystical experiences.

The Problem of Trieste and the Italo-Yugoslav Border Glenda Sluga 2001-01-11 Uses the history of Trieste and the Italo-Yugoslav border to examine how representations of difference have affected the politics of sovereignty during the twentieth century.

A Voice from Elsewhere Maurice Blanchot 2007-03-01 Reflections on the enigma and secret of "literature."

Los Angeles Magazine 2003-11 Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

Postfeminism and Health Sarah Riley 2018-07-27 This groundbreaking book employs a transdisciplinary and poststructuralist methodology to develop the concept of 'postfeminist healthism,' a twenty-first-century understanding of women's physical and mental health formed at the intersections of postfeminist sensibilities, neoliberal constructs of citizenship and the notion of health as an individual responsibility managed through consumption. Postfeminist healthism is used in this book to explore seven topics where postfeminist sensibility has the most impact on women's health: self-help, weight, surgical technologies, sex, pregnancy, responsibilities for others' health and pro-anorexia communities. The book explores the ways in which the desire to be normal and live a good life is tied to expectations of 'normal-perfection' circulated across interpersonal interactions, media representations and expert discourses. It diagnoses postfeminist healthism as unhealthy for both those women who participate in it and those whom it excludes and considers how more positive directions may emerge. By exploring the under-researched intersection of postfeminism and health studies, this book will be invaluable to researchers and students in psychology, gender and women's studies, health research, media studies and sociology.

Whitaker's Books in Print 1998

Student Nationalism in China, 1924-1949 Lincoln Li 1994-01-01 Li examines the critical role of the younger generation as a political force, influenced by the cultural and ideological debates during China's reunification in 1927 and again in 1949. He focuses on key organizations to illustrate how political parties turned explosive, national feelings into an organized political force. Li shows how Chinese student nationalism, despite its radical image, represents a prominent feature of continuity in Chinese sociopolitical culture.

Japan's Relations with Southeast Asia Peng Er Lam 2013 The Fukuda Doctrine has been the official blueprint to Japan's foreign policy towards Southeast Asia since 1977. This book examines the Fukuda Doctrine in the context of Japan-Southeast Asia relations, and discusses the possibility of a non-realist approach in the imagining and conduct of international relations in East Asia. The collapse of 54 years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo's policy and behaviour towards Southeast Asia. Looking at its origins and norms amidst three decades of change, the book argues that the Fukuda Doctrine is still relevant to Japan-Southeast Asian relations, and should be extended to relations between China and Japan if an East Asian Community is to be built. The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia, including the revitalization of Japan's security role. By providing a detailed understanding of a non-western perspective of Japan's relationship with Southeast Asia, this book is a useful contribution for students and scholars of Asian Studies, Politics and International Relations.

Forthcoming Books Rose Army 2002

Ethics and Global Security Anthony Burke 2014-06-27 This book will be the first systematic examination of the role that ethics plays in international security in both theory and practice, and offers the reader a concrete ethics for global security. Questions of morality and ethics have long been central to global security, from the death camps, world wars and H-bombs of the 20th century, to the humanitarian missions, tsunamis, terrorism and refugees of the 21st. This book goes beyond the Just War tradition to demonstrate how ethical commitments influence security theory, policy and international law, across a range of pressing global challenges. The book highlights how, from patrolling a territorial border to maintaining armed forces, security practices have important ethical implications, by excluding some from consideration, presenting others as potential threats and exposing them to harm, and licensing particular actions. While many scholars and practitioners of security claim little interest in ethics, ethics clearly has an interest in them. This innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions, deterrence, terrorism, targeted killing, and torture, and the ethical implications of new security concerns such as identity, gender, humanitarianism, the responsibility to protect, and the global ecology. It advances a concrete ethics for an era of global threats, and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just, stable and inclusive global order. This book fills an important gap in the literature and will be of much interest to students of ethics, security studies and international relations.
